DETAILED ACTION

Allowable Subject Matter

1. Claims 1-16 are allowed.
2. The following is an examiner's statement of reasons for allowance: with respect to claims 1-8, patentability resides, at least in part, in the security system comprising a security cable having a connector at a first end and a loop at a second end in combination with a power cable, integrally formed with the security cable, having a power adapter and a power plug as claimed; as to claims 10-16, patentability resides, at least in part, in the secure computer system comprising a security cable having a connector at a first end and a loop at a second end; and a power cable, integrally formed with the security cable, having a power adapter and a power plug, in combination with the other limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please note the teachings of Derman (5398530, 6159025, 6227502), Avganim (20040261473, 20050039502), Makous (5579657), Hsu (6622532), Syu (6763688), Pate et al. (6389853), and Fogle (6297963). It is noted that, although the prior art of record may teach a security system and/or a secure computer system,

Art Unit: 2835

the prior art of record fails to teach and/or fairly suggest the combination as claimed.

Therefore, the examiner of record deems claims 1-16 allowable over the prior art of record.
